Subject: Approval of the Request for French Drain Removal
Dunn/Erwin C&DLF on Top of the Closed MSWLF
Harnett County, North Carolina
Permit Nos. 43-02, Document ID No. 20630

Dear Ms. Bader:

On December 3, 2013 the Division of Waste Management (DWM), Solid Waste Section (SWS) received a written request of an approval of removing approximately 800-feet of an existing french drain at the Dunn/Erwin C&DLF, which is located on top of the closed unlined MSWLF. On behalf of Harnett County (the County), Smith Gardner, Inc. prepared the "French Drain Removal Notification", dated December 2, 2013 (Doc ID 20241), and the February 24, 2014 responses (Doc ID 20629) to the DWM comments (Doc ID 20628) on the proposed activities. After reviewing the notification and responses, the SWS has determined that the proposed removal activities are acceptable and approves the proposal (Doc ID 20241 & 20629). The County must conduct the french drain removal activities according to the approved proposal. The issuance of this approval does not remove the County's responsibilities for compliance with any other local, state or federal rule, regulation or statute. If you have any questions about this approval or request any assistances in the courses of the removal activities, please contact myself at (919) 707-8281 or ming.chao@ncdenr.gov.

Sincerely,

Ming-Tai Chao, P.E.,
Environmental Engineer
Solid Waste Section
